

# JUEGO DE POSICIÓN IS:

- ❑ a Methodology: A framework in terms of methodologies that are introduced to guide the individual and team to a certain concept in which the individual must let go the framework to go beyond it and arrive at a 100% autonomous decision-making state.
- ❑ a Field - Positional Tool: It's not about passing or keeping the ball, its about the players understanding where they need to be located in the field in order to have a fluid progression of the ball.
- ❑ a Temporal – Spatial Tool: The players are positioned in a zone determined by the phase of the game, the teammates, the rival, and where the ball is.
- ❑ a Player – Relationship Tool: Look to create associations (connections) between players on and off the ball.
- ❑ a Progression tool: It is not a succession of passes or to have the ball just to have it, its to create advantages and favorable situations of open players so that you progress up the field while dismembering the adversary.

Juego de Posición is a framework or tool to move the ball into the finishing zone by the creation and resolution of superioridades.
